"This software and training resources have allowed us to prepare and enact our full training vision for all the schools in our trust."

Ben Davies, Executive Headteacher,
St Martins Multi Academy Trust

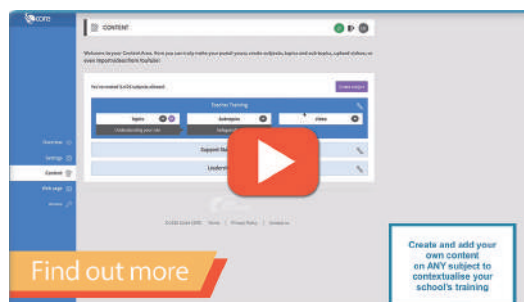

You are your school's teaching experts.

You know what training is needed in your school. Guide Connect allows you to turn all your powerpoints into instant video, covering all your training and development needs for your teachers and support staff. Use our platform to create training videos instantly.

On any device, schools and colleges use our system to:

- Record your screen and **annotate** as needed
- Upload a PowerPoint and **add audio**
- Share best practice and feedback
- **Invite teachers to share** lessons sections for remote feedback

Create your own learning material alongside our content library to perfect context-based training in your school.

BOOK A DEMO

"Teachers in our schools complete Guide CPD and training. The breadth of courses is perfect and the support exceptional."

David Silvester, CEO,
James Montgomery Academy Trust

Our expert library

From the first day in school to senior leadership training.

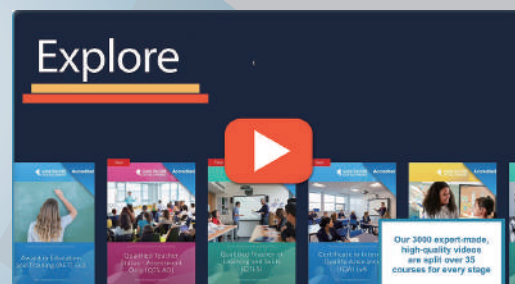

Our **3000 expert, high-quality videos** are split over **35 courses** to give all your staff the broad support they need in any given stage of career development. Our system covers all the core elements of training, plus:

- True **interactive** questions that can also be tailored
- Answer **support and sharing** for private groups
- **Multiple ways** to demonstrate understanding
- **Custom** content for different groups

For **learning transformations** to occur you need to see your learners putting your teaching into action; set them the task of **recording themselves** using what you've taught.

Remember, going forward it isn't just about offering courses and leaving them high and dry. **The learning journey has only just begun.**

"Within hours of meeting staff in my new school I was able to personalise each of their learning pathways through Guide."

Karen Smith, Headteacher,
Ferham Primary School

Assess & support

Now you make the difference.

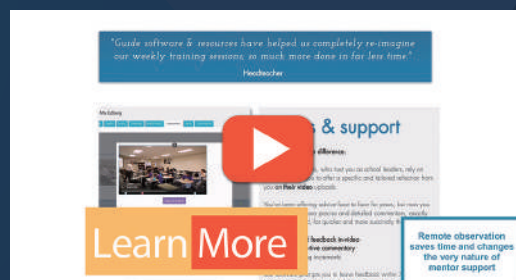

Developing teachers, who trust you as school leaders, rely on you, now need you to offer a specific and tailored reflection from you on **their video** uploads.

You've been offering advice face to face for years, but now you can give much more precise and detailed commentary, exactly where it's needed, far quicker and more succinctly than ever

- Add detailed **feedback in-video**
- Leave **supportive commentary**
- **Track** learning increments

Our software prompts you to leave feedback within 72 hours. How much feedback you've left for each teacher you're supporting will be tracked so you can allocate your time and prioritise with ease.

"The video feedback tools allowed my mentor to give me great, detailed advice. I could actually see how and where to improve!"

Sandra Anikpe,
QTS Candidate

Your community

Collaboration and swarming.

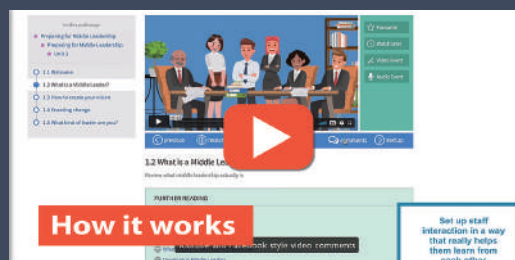

You don't have to be the only teacher on your course. You can **invite colleagues you trust to assist** in giving feedback.

You can also allow learners to **learn from other learners** by allowing them to access other learners' answers and their feedback.

- Create **swarm response** groups
- **Add forums** to each learning section
- **Track** learning increments

There are so many ways Guide Connect can support learners that will help them and provide them with a learning trail other users can benefit from.

How it works >

"The Guide system has allowed our staff to complete qualifications in a third of the time we previously did."

Dr Ian Baird, Educational Training Lead,
ADVETI

They qualify

Only pay for qualifications after they've been completed.

As leaders, we've been there; you purchase courses for staff who are unable to complete them. Precious finances are wasted. You want to **give each member of staff the support and opportunity, with one eye on your training budget.**

All qualifications and professional awards are included in our library. Staff can work on them over any time period at no extra charge. When all assessment criteria is complete, your senior leadership team is satisfied they have met the objectives, then you pay a small accreditation fee, making it official.

Qualifications we offer include:

- **QTS (AO)** Qualified Teacher Status (Assessment Only)
- **HLTA** Higher Level Teaching Assistant (Level 4)
- **AET** Award in Education and Training (Level 3)

Explainer >

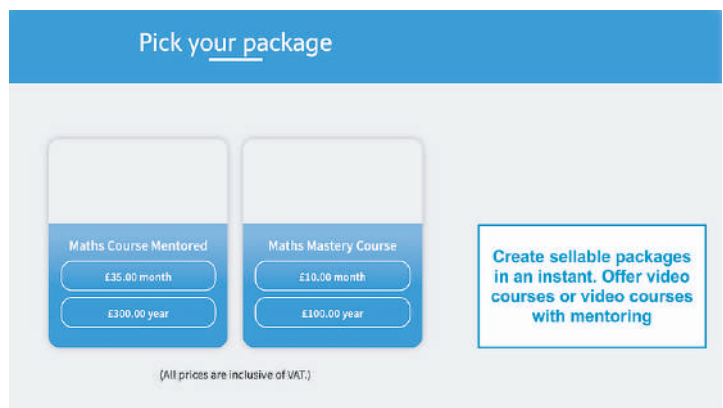

A marketplace

Share and monetise your expertise.

When your courses start to make a difference you have the opportunity to share them far and wide. **Create your own bespoke landing page** so more teachers and educators can benefit from your knowledge.

- Create **free or paid packages** for any of your courses
- Facilitate **online payments** with ease
- **One-off, monthly or annual** subscriptions

Simple, seamless integration with Stripe means you can take payments anywhere online and get paid easier.
